To whom it may concern

I am pleased to provide this recommendation for Mr. Ishaan Puri, a student at Singapore American School and resident of 40 Woodlands Street 41, Singapore 738547. Ishaan has demonstrated consistent commitment as a volunteer with Farm 2 Food Foundation, making notable contributions to our projects.

His initial engagement comprised remote work during October and November 2026, followed by an intensive week in Jorhat, Assam, India, participating in voluntary activities onsite. Notably, Ishaan developed an AI-assisted Seed Sower machine tailored for our farmers, which was subsequently tested with local staff and adapted for varying plot sizes and crop types. The device generated considerable interest among farmers who acknowledged its capacity to alleviate the physical demands of seed sowing. Beneficiaries in Mishing Gaon and Sarucharai villages expressed their appreciation for Ishaan's introduction of this innovative tool. His proficiency in leveraging Artificial Intelligence to address practical agricultural challenges was particularly evident.

Additionally, Ishaan shared his innovations with students across schools and colleges in Jorhat district, conducting workshops that encouraged youth to engage in agricultural innovation and entrepreneurship. His efforts facilitated meaningful dialogue among local youth and promoted creative approaches within the sector. He also led sessions with college students, advancing discussions on youth-driven innovation at the community level.

Throughout his tenure with our organization, Ishaan consistently exhibited exceptional initiative and a genuine dedication to agricultural and food systems development. He participated actively in community outreach programs and consistently displayed reliability, enthusiasm, and effective interpersonal skills, thereby enhancing our team.

In light of his commitment, collaborative approach, and strong leadership abilities, I highly recommend Mr. Ishaan Puri for any opportunity he seeks. He is an exemplary volunteer whose contributions have resulted in lasting positive impacts within our foundation and the communities we serve.

Sincerely,
